MAINTENANCE CHECK SHEET 2010MY - Onwards XF 5.0L

⊙ TIME (Years)	1	2	3	4	5	6	7	8	9	10
• MILES (Thousands)	15	30	45	60	75	90	105	120	135	150
• KM (Thousands)	24	48	72	96	120	144	168	192	216	240
7. ROAD TEST										
Perform comprehensive road test and verify the following:										
 Correct operation of Jaguar Drive[™] Selector and transmission interlock 										
 Correct operation of fault lamps and instruments 										
 Condition and operation of seatbelts 										
 Operation of steering column and seat adjustment mechanisms 										
Starter motor operates normally and engine starts easily										
 Steering self-centers from left and right-hand turns 										
 Vehicle does not pull or wander to one side 										
• Brakes operate smoothly without judder, noise, or pull to one side										
 Transmission shifts up and down smoothly; Jaguar Sequential Shift[™] operation 										
Cruise control operation										
Climate control operation										
Inspect for undue vehicle noises										
8. FINAL										
 Reset service interval announcement indicator 										
Reset engine oil level indicator										
Endorse service record										
Affix next service reminder sticker										
 Report any unusual features of vehicle condition and additional / remedial work required 										

NOTE: Some service items do not need to be carried out at every service. All required steps in a specific service are identified in the column headed by mileage / months with a ' \blacksquare '.

• Should the vehicle have a high proportion of short journeys or operate in severe conditions, Jaguar North America recommends that the maintenance procedures be performed at intervals not to exceed six (6) months.
