Special Fluids

MOBIL 1 5W-20

Differentials

Fully synthetic high performance oil, with a viscosity recommended by Honda, Ford and Chrysler.

Advantages

- Advanced protection for exceptional performance
- Helps prevent deposits and the accumulation of sludge
- Provides for longer engine life

DETAILS

CLOSE

Protection for the maximum interval between recommended oil changes.
 Helps to reduce fuel consumption.
 Meets the requirements of Chrysler HEMI engines with MDS (Multi Displacement Systems).
 Produced using a patented blend of high performance synthetic base oils, fortified with a precisely balanced system of constituents.
 Specially designed to help provide unequalled levels of performance, cleansing power and engine protection, meeting the performance standard requirements ILSAC GF-4.
Meets or exceeds: API SN, SN RESOURCE CONSERVING, SM, SM Energy Conserving, SL, SJ; ILSAC GF-4, GF-5; ACEA A1/B1; Ford WSS-M2C925-A, FORD WSS-M2C945-A, WSS-M2C930-A; Chrysler MS-6395.
Recommended by ExxonMobil for applications that require: API CF; ILSAC GF-4, GF-3; GM 6049M.
