Remanufactured Timeport Phone Program

MODEL All  
VIN

**Please copy your Service and Sales Management**

This remanufactured phone program will enable each dealership to continue sales of the Timeport phone. The reduced price of the phone kit allows the customer to have a phone system installed in their vehicle at a much lower price while maintaining the same level of warranty. Customers must be informed that they are purchasing rebuilt units.

Warranty for the remanufactured Timeport remains the same as for new phones and is detailed in your Jaguar Warranty Policies and Procedures manual.

Installation kits and accessories remain unchanged. Please refer to the X-Accessories/Consumables section of the parts bulletins for all part numbers needed. Note that the part numbers for the new phone kits and handsets will supercede to the new numbers below when stocks are exhausted. Also there has been considerable consolidation of part numbers within the carriers. Please use the phone website, <http://www.jaguarphones.com> to determine what the remanufactured number is for the zip code needed.

**PART NUMBERS FOR KITS AND HANDSETS**

**PHONE KITS (PHONE, HOLSTER, BATTERY, CHARGER, OWNERS MANUAL)**

- Verizon BAM (East)CDMA      LNG 7339JCR
- Verizon Airtouch (West) CDMA      LNG 7339KCR
- Sprint CDMA      LNG 7339BDR
- Cingular TDMA      LNG 7339UAR
- AT&T Wireless TDMA      LNG 7339CBR

**Note:** Complete phone kits **MUST NOT** be used for warranty purposes. All components that are included in the kits are available separately. Please refer to the X-Accessories/Consumables section of the parts bulletins for all part numbers needed. Bulletins can be found at:  
<https://web.jagtech.dealerconnection.com>

**Any/All kits that are used for warranty purposes will be debited and returned.**
