

# Plastics Abbreviations

|              |   |
|--------------|---|
| <b>ABS</b>   | acrylonitrile-butadiene-styrene                                 |
| <b>ASA</b>   | acrylate-styrene-acrylonitrile                                  |
| <b>ATH</b>   | aluminium trihydrate  |
| <b>BDS</b>   | butadiene-styrene block copolymer                               |
| <b>BMC</b>   | bulk moulding compound  |
| <b>BOPP</b>  | biaxially oriented polypropylene                                |
| <b>BR</b>    | butadiene rubber  |
| <b>CA</b>    | cellulose acetate   |
| <b>CAB</b>   | cellulose acetate-butyrate                                      |
| <b>CAP</b>   | celluse acetate propionate                                      |
| <b>CE</b>    | cellulose   |
| <b>CMC</b>   | carboxymethyl celluse   |
| <b>CN</b>    | cellulose nitrate   |
| <b>CP</b>    | cellulose propionate  |
| <b>CSM</b>   | chopped strand mat (or) chlorosulphonated polyethylene (rubber) |
| <b>DMC</b>   | dough moulding compound   |
| <b>ECTFE</b> | ethylene chlorotrifluoro ethylene copolymer                     |
| <b>EPDM</b>  | ethylene-propylene-diene monomer (elastomer)                    |
| <b>EPM</b>   | ethylene-propylene rubber = EPR                                 |
| <b>EPR</b>   | ethylene-propylene rubber = EPM                                 |
| <b>EPS</b>   | expanded polystyrene  |
| <b>EVA</b>   | ethylene vinyl acetate  |

|               |   |
|---------------|---|
| <b>EVOH</b>   | ethylene vinyl acetate                          |
| <b>FEP</b>    | fluorinated ethylene-propylene                  |
| <b>FRP</b>    | fibre reinforced polyester/plastics             |
| <b>GMT</b>    | glass mat thermoplastic                         |
| <b>GPPS</b>   | general purpose polystyrene                     |
| <b>GRP</b>    | glass reinforced plastic                        |
| <b>HDPE</b>   | high density polyethylene                       |
| <b>HEMA</b>   | hydroxyethyl methacrylate polymer               |
| <b>HIPS</b>   | high impact polystyrene = TPS                   |
| <b>LCP</b>    | liquid crystal polymer = SRP                    |
| <b>LDPE</b>   | low density polyethylene                        |
| <b>LLDPE</b>  | linear low density polyethylene                 |
| <b>MBS</b>    | methacrylate-butadiene-styrene terpolymer       |
| <b>MDPE</b>   | medium density polyethylene                     |
| <b>MF</b>     | melamine formaldehyde                           |
| <b>NBR</b>    | nitrile rubber = acrylonitrile butadiene rubber |
| <b>NR</b>     | natural rubber                                  |
| <b>OPP</b>    | oriented polypropylene                          |
| <b>PA</b>     | polyamide = nylon                               |
| <b>PA 11</b>  | nylon 11  |
| <b>PA 12</b>  | nylon 12  |
| <b>PA 46</b>  | nylon 46  |
| <b>PA 6</b>   | nylon 6   |
| <b>PA 610</b> | nylon 610                                       |
| <b>PA 66</b>  | nylon 66  |

|                  |                                   |
|------------------|-----------------------------------|
| <b>PA 66/610</b> | nylon 66/610 copolymer            |
| <b>PAA</b>       | polaryl amide                     |
| <b>PAI</b>       | polyamide imide                   |
| <b>PAN</b>       | polyacrylonitrile                 |
| <b>PB</b>        | polybutylene                      |
| <b>PBT</b>       | polybutylene terephthalate = PTMT |
| <b>PC</b>        | polycarbonate                     |
| <b>PE</b>        | polyethylene                      |
| <b>PEBA</b>      | polyether block amide             |
| <b>PEEK</b>      | polyetheretherketone              |
| <b>PEEL</b>      | polyester elastomer               |
| <b>PEI</b>       | polyester imide                   |
| <b>PEK</b>       | polyetherketone                   |
| <b>PES</b>       | polyether sulphone                |
| <b>PETG</b>      | PET copolymer                     |
| <b>PETP</b>      | polyethylene terephthalate        |
| <b>PF</b>        | phenol formaldehyde               |
| <b>PFA</b>       | perfluoro alkoxy alkane           |
| <b>PHB</b>       | polyhydroxybutyrate               |
| <b>PI</b>        | polyimide                         |
| <b>PIR</b>       | polyisocyanurate rigid (foam)     |
| <b>PMMA</b>      | polymethyl methacrylate           |
| <b>PMP</b>       | polymethyl pentene                |
| <b>POM</b>       | polyoxymethylene                  |
| <b>PP</b>        | polypropylene                     |

|             |   |
|-------------|---|
| <b>PPE</b>  | polyphenylene ether                         |
| <b>PPO</b>  | polyphenylene oxide                         |
| <b>PPS</b>  | polyphenylene sulphide                      |
| <b>PPSS</b> | polyphenylene sulphide sulphone             |
| <b>PS</b>   | polystyrene                                 |
| <b>PSU</b>  | polysulphone                                |
| <b>PTFE</b> | polytetrafluoroethylene                     |
| <b>PTMT</b> | polytetramethylene terephthalate = PBT      |
| <b>PUR</b>  | polyurethane                                |
| <b>PVA</b>  | polyvinyl acetate                           |
| <b>PVB</b>  | polyvinyl butyral (butyrate)                |
| <b>PVC</b>  | polyvinyl chloride                          |
| <b>PVCC</b> | chlorinated polyvinyl chloride              |
| <b>PVCP</b> | polyvinyl chloride plasticised              |
| <b>PVCU</b> | polyvinyl chloride unplasticised            |
| <b>PVDC</b> | polyvinylidene chloride                     |
| <b>PVDF</b> | polyvinylidene flouride                     |
| <b>PVF</b>  | polyvinylflouride                           |
| <b>PVOH</b> | polyvinyl alcohol                           |
| <b>SAN</b>  | styrene acrylonitrile (copolymer)           |
| <b>SBR</b>  | styrene butadiene rubber                    |
| <b>SBS</b>  | styrene-butadiene-styrene (block copolymer) |
| <b>SEBS</b> | styrene-ethylene-butadiene-styrene          |
| <b>SIS</b>  | styrene-isoprene-styrene                    |
| <b>SMA</b>  | styrene maleic anhydride                    |

|               |  |
|---------------|--|
| <b>SMC</b>    | sheet moulding compound                    |
| <b>SRP</b>    | self reinforcing polymer = LCP             |
| <b>TPE</b>    | thermoplastic elastomer                    |
| <b>TPO</b>    | thermoplastic olefin (rubber)              |
| <b>TPR</b>    | thermoplastic rubber                       |
| <b>TPS</b>    | toughened polystyrene = HIPS               |
| <b>TPU</b>    | thermoplastic polyurethane (rubber) = TPUR |
| <b>TPUR</b>   | thermoplastic polyurethane (rubber) = TPU  |
| <b>TPX*</b>   | polymethyl pentene copolymer               |
| <b>UF</b>     | urea formaldehyde                          |
| <b>UHMWPE</b> | ultra high molecular weight PE             |
| <b>VC</b>     | vinyl chloride = VCM                       |
| <b>VCM</b>    | vinyl chloride monomer = VC                |
| <b>XLPE</b>   | cross-linked polyethylene                  |
