### FOR THIS VEHICLE

Final assembly plant: COVENTRY, ENGLAND  
Country of origin:  
Engine Parts ENGLAND  
Transmission parts GERMANY

### BUMPER QUALITY LABEL

\*This vehicle is equipped with a front bumper that has been tested at an impact speed of 2.5 mph per hour, and a rear bumper that has been tested at an impact speed of 2.5 mph per hour and has resulted in no damage to vehicle body and minimal damage to the bumper and all of its fasteners. Minimal damage to bumper may be repaired at a cost of approximately \$100 without replacing parts. The stronger the bumper the less the vehicle will require repair after a low speed collision. \*\*For carriers, the impact is 60% of total rated gross weight.

### IMPORTANT NOTICE

There is a potential for a recall of the vehicle if the bumper damage will not be repaired based on reasonable engineering judgment and data then being presented to the Federal government which prohibits damage to the vehicle body or safety systems in 2.5 mph impacts, but not less than 1.5 mph on then again for bumpers and their systems components and fasteners. This vehicle meets the Federal bumper standard of 2.5 mph test and rear, and 1.5 mph on the bumper corners.
